

Our work on regularization

The Canadian Council for Refugees and its members have long been advocating to regularize people in Canada who have no status or precarious status. Our regularization campaign was created to amplify these voices, and to continue calling on the Canadian government to provide **Status for All** now.

Many allies across the country are working on different approaches to demand status for all. Here's an overview of what we've been doing in the past year:

• What are our demands?

We call on the Canadian government to **reform the immigration system** to bring an end to our two-tiered society and to **provide permanent status to all those living and working here**, recognizing their dignity and rights as human beings.

• What work has the CCR done?

Produced a submission to the government calling for open & flexible pathways

Relaunched our campaign in March 2024 advocating for status for all

Called on advocates to send letters to the Prime Minister, Minister Miller, and their MPs

• Why are we renewing our efforts?

Minister Miller has announced that the regularization program will be announced in the Spring. We need to push the government for a broad and comprehensive program and urgently call for #StatusForAll.

We have also been gravely concerned with the rising numbers of deportations even as the government is working a regularization program.

Scan here to send a letter

• How can you be a part of our collective voice?

→ **Write a letter to the Prime Minister, Minister Miller and you MP demanding a broad and comprehensive regularization program**

→ Tweet at your local journalists and MPs, as well as @MarcMillerVM, and use the hashtag #StatusForAll

• What are some key campaign messages?

Without permanent status, people in Canada are denied basic rights, services, and support. We need #StatusForAll now!

Canada must provide permanent status to all those living and working here, and recognize their dignity and rights as human beings. #StatusForAll

People without status already live here as valued members of our communities. They are our friends and neighbours who want and deserve the same things as everyone else in Canada: an opportunity to live full lives, raise their families, and fulfill their potential #StatusForAll
