INTRODUCTION MANUAL

Welcome to Better Together!

Better Together is a national campaign by the Canadian Council for Refugees aimed at increasing the public's understanding of all the ways refugees now and before, through their presence, renew Canada's culture, society, and economy.

Better Together presents three poster templates and corresponding social media content for membership use and distribution.

Where to start?

I'm a total beginner!

If you've never used design software before, we recommend visiting Canva's tutorials @ www.canva.com/learn/tutorials/

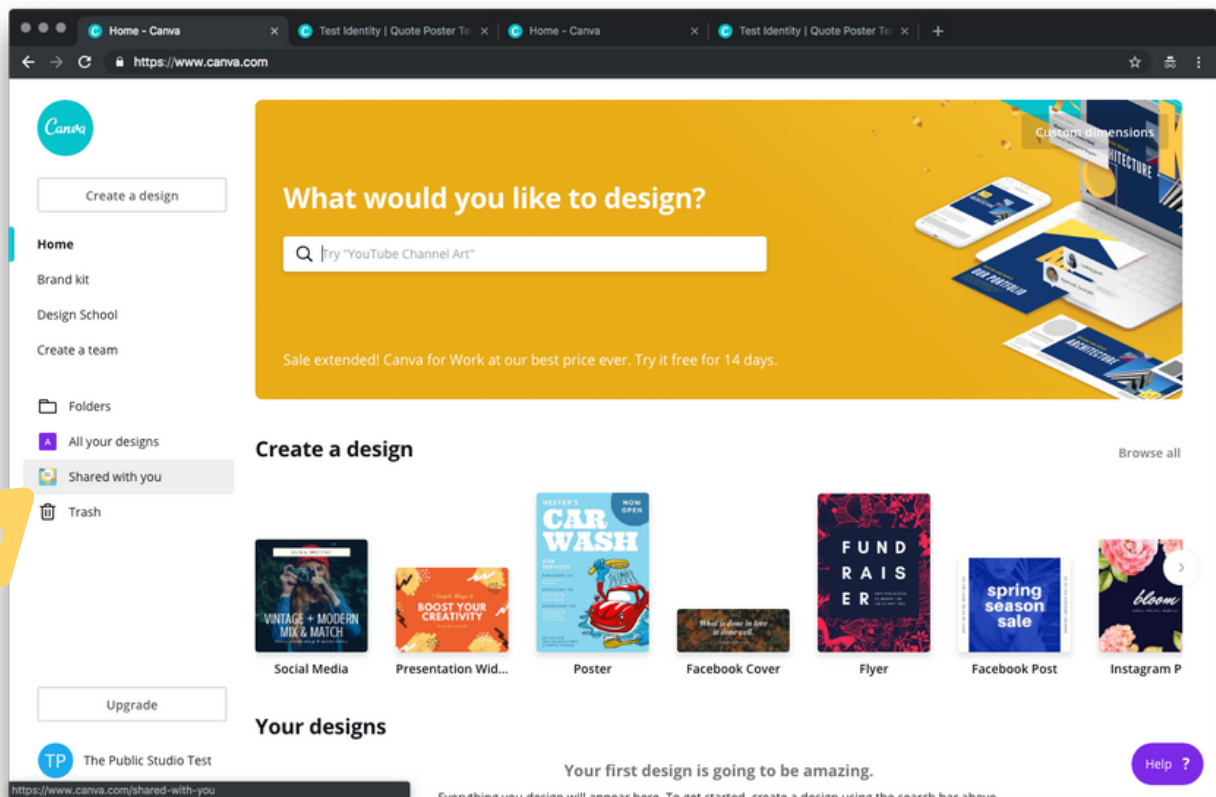

I'm pretty computer savvy. What next?

Great! You can start by visiting the Better Together templates. Each template has an example poster as well as usage instructions. With each template comes corresponding social media images for distribution online.

To use a template, you use the links you've been provided. We recommend starting with the Introduction Manual.

Using the templates

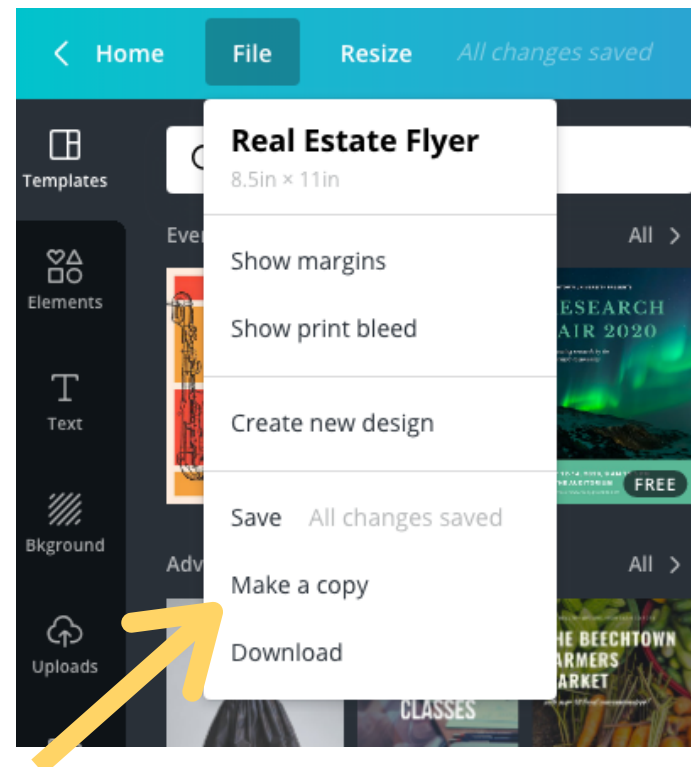

The templates can be found in the **Shared With You** folder.

You'll find a copy of each file named for your organization.

These are your files for your use. Feel free to make a copy or edit within the provided templates.

Copies are located in the **All Your Designs** folder.

Using the templates

To start using a template, double-click the preview.

Once the template is open, you can make as many edits as you like. Each template has a **use guide** and **sample** following the first page.

Delete the use guide and example before printing. Or, alternatively, only download your design by selecting the **Poster Template** page.

To download, click the download button on the top right corner. Save to a location that is easy to find (i.e. Desktop).

You're done! **Print these files from your own computer.**
